FINANCE AND BUSINESS.

GENERAL MARKET REVIEW. MONEY MATTERS.

In this city there is no question that money is hard to be obtained in the ordinary lines of business. It is about as hard to keep up a legitimate business as it was twelve months ago in the height of the panic. Yet there is not that fear and apprehension, for it is known business activity must grow and that the land teems with abundance of the resources of wealth. In Chicago, the Inter-Ocean says: Business generally seems to have diminished. This is indicated by the smaller amount of clearings this week than last. The decrease of business at this time in the fall, just before the pork packing begins, is the usual experience. The fall trade in Chicago seems to have been satisfactory to the great majority of merchants, and though the average of profits has been small the volume of legitimate mercantile business in the month closing to-night has been greater than in any previous October. There is also reason to expect that the winter business will be an equally favorable comparison with former years.

The San Francisco Alta of the 22d says: The shipment of treasure this week has

been as follows:	1873.	1874.
New York per rail- road	\$753,727 00 217,506 00 140,000 00 47,470 00	\$654,240 17 416,175 29

Total	19,357,233 09	823,681, 78 3 73

Total since January 1...\$29,757,233 09 \$23,681,733 78 mostly trade dollars and silver, the former to cover drawn bills. The latter has become a drug, and some of the leading mines talk of a eparating the gold for coin and holding the silver for a better price. For the East this week there has been a renewal of the coin shipments. That drain, with the sums paid in for duties, comes to exceed the coin-age, the combined movement having been, for September, \$2,987,275 against \$2,260,000 soined. This month the coinage is less and the excess of outgo larger.

The return from the Bank of England for

the week ended the 14th inst., gives the following results when compared with the pre-

.....£ 3,096,212 Increase.....£ 22,80 Public deposits 3,957,287 Decrease.... Other deposits 21,947,749 Decrease.... On the other side of the account: Gov't securities....... £15,340,156 No change. The amount of notes in circulation is £27,669,430, being an increase of £57,080, and the stock of ballion in both departments is £22,066,256, showing a decrease of £573,316 when compared with the preceding return.

The circulation of notes in Switzerland averaged, in 1873, francs 47,681,756, against francs 16,960,000 in 1869. At the end of 1873 bushel. White sand, \$4 per barrel. Fire brick, \$3,37 per hundred. Fire clay, 75c per bushel. Bullding brick, \$6,50,39, according to quality. Hair, 40c. Nails, 10s and 80s, \$4.60; 8s and 8s, \$4.75; 6s and 7s, \$5; 4s \$5,20. francs 84,322,000.

FOREIGN DRY GOODS. We anticipate by one day the close of the month, as our record is kept in even weeks, and present herewith our usual monthly statement of the imports of foreign dry goods. The total for October is less by half a million dollars than for the corresponding period of last year, a million dol lars less than for October, 1872, and two and a balf millions less than for the same time in 1872, when the aggregate was \$8,-611,975. REVIEW OF THE HOME MARK ETS WEEKLY REVIEW OF THE INDIANAPOLIS WHOLESALE MARKETS.

MONDAY EVENING, November 2. There was a better feeling in grain, prices in Chicago being reported firmer. Reports from Liverpeol continue favorable and it is not outside of possibilities that the stock of American Amoskeag ACA. breadstnffs may be turned to a reasonable equivalent in cash yet before spring. Provisions were a little weak, but only from transient causes, the price of hogs being well maintained Extra 74 Medal. at about 6 cents advance. Yesterday the firm of Lewistown, 36 inch Coffin, Wheat, Fletcher & Co. began killing hogs. They will slaughter from 1,200 to 1,500 Plaid .. daily from this time on till the close of the season. In dry goods there is a fair and steady trade with prices unchanged. The hint of cold | Stark weather last week gave woolen goods a start, and as soon as the mercury goes down this class of goods will move actively. There has been a good average trade in groceries since the last review of the weekly market. Collections have Ordinary. been no freer, but as hogs are beginning to move and corn and wheat are bringing better prices and corn and wheat are bringing better prices there is a hopeful indication of a loosening up in country finances before a great while. Sugars have remained weak and close at a stand of 10% for strndard A's East. The decline has been by eights and quarters and slow at that, so that the trade has not felt the change as if the decline had been a sudden one. The demand is good for the season and stocks are well assorted. Coffees remain firm with a tendency upward and light stocks in first hands East. Prices range from 21 to 25c for fair to choice grades. The low grades roasting are unfit for the retail The low grades reasting are unfit for the retail trade in their green state and go into consump-tion as reasted coffee through the spice mills. Starch firm. Oats unchanged. Syrups and rice quiet and dull. Brown firm at the recent rise. Babbit's soap has advanced ic per pound at the factory and all soaps are somewhat higher, ma-

factory and all soaps are somewhat higher, material being so expensive.

Sales were fair for Monday, the list reported being as follows: 300 bbls flour, pt.; 3 cars new shelfed corn, pt.; 100 bbls flour (Lowell), \$6; 1 car No. 2 white oats, 51c; 1 car white oats, 50c; 1 car No. 2 new white corn, on board, 60c; 100 bbls flour, \$5 50; 100 bbls flour, \$6; 1 car new No. 2 white corn, 60c; 1 car new shelsed corn, 58; 1 do, 50c; 2 car potatoes, 95c; 1 do, 80c.
